

Victor Ehrnrooth

Stockholm, SE | [linkedin.com/in/victor-ehrnrooth](https://www.linkedin.com/in/victor-ehrnrooth)

SUMMARY

Fast-learning, execution-focused associate with extensive experience managing multi-party projects across energy, tech, and defence. Co-created CxO initiatives, identified market expansion strategies, and improved operations at McKinsey. Led military units in field exercises, scaled operations at an early-stage startup, and performed critical energy market modelling at a leading engineering firm. Commended for high-pace execution, analytical skill, and operational excellence.

EXPERIENCE

MCKINSEY & COMPANY

Stockholm, Sweden

Junior Associate (Selected list of projects follows)

September 2025 - Present

Operations Excellence & Growth Acceleration, TMT: B2B SaaS

- Produced company-first granular churn-risk model to categorise >4,000 accounts by churn risk and co-create growth & churn management strategies and new customer success (CS) operating procedures with CS executive team

Growth Acceleration, Energy: BESS & Clean Technology

- Led critical expansion workstreams, conducting diagnostics into energy market revenues, regulations, and deployment timelines for BESS across 10+ geographies while coordinating deployment of new market functions & legal organs

Operations Excellence, Energy: Heat pumps & Clean Technology

- Benchmarked best-in-class players against internal practices to identify opportunities for heat-pump installation optimisation at scale

Vendor Commercial Due Diligence, Private Equity: Infrastructure & B2C Software

- Analysed competitive landscape in Nordic software and infrastructure markets, informing fund investment decisions

AFRY ENGINEERING CONSULTANCY

Oxford, UK

Energy Intern (Energy modelling; received full-time offer)

June 2024 - September 2024

- Independently developed a foundational data extraction workstream for the most advanced European energy model (BID3), utilising SQL, R, and Excel to deliver cutting-edge system analysis for key UK energy market stakeholders

FINNISH DEFENCE FORCES – FINNISH MARINES

Raseborg, Finland

Second-Lieutenant (Military service & officer school)

July 2022 - June 2023

- Led battalion-level signals operations for a Marine Staff and Signal Company, directly coordinating communications for 150+ soldiers in simulated combat and international exercises; recognised for excellence via the Raseborg Dutiful Service Award and graduating with distinction from the Reserve Officer School (RUK) (7% admissions rate nationally)

BERRLIO (Early stage social media start-up, >5,000 users)

Philadelphia, USA

COO

October 2020 - October 2021

- More than doubled user base to 5,000+ and won competitive UPenn Innovation Fund support by leading pitch efforts and marketing operations, supported by proprietary R-based parsing algorithms and financial scenario modeling

EDUCATION

UNIVERSITY OF OXFORD

Oxford, UK

Master of Philosophy, Distinction

July 2025

Academic results: Distinction in all courses and thesis, top 5 (out of 70+) in cohort overall

Thesis: “Publish, Perish, or Pivot: Project Completion and Alignment Under an Uncertain Bayesian Signalling Framework”

Selected Involvements: Microeconomics teacher for 2nd-year undergraduates; Team Lead at The Oxford Strategy Challenge

UNIVERSITY OF PENNSYLVANIA

Philadelphia, USA

Bachelor of Arts, Honours, Summa Cum Laude

May 2022

Major: Mathematical Economics

Cumulative GPA: 3.98 out of 4.00

Selected Involvements: Department Liaison, Economics Advisory Board; Board Member, Intl. Student Advisory Board
